

# Grindstone Angling Open House

April 16, 2011

The crew at Grindstone Angling once again threw open their doors to host an Open House Event. This annual event lets fly fishers from the golden horseshoe area meet and see what is new in the fly fishing sport. Owner John Valk is a valued supporter of Trout Unlimited, this is his way of giving back. In his own words, *“this is my contribution to T.U., the nature of my business does not allow me to do the grunt work so this way I can provide*

*relevance to the organization from a different angle”*, no truer words have ever been spoken.

The event was attended by many fly fishing enthusiasts. The tying demonstrations and general camaraderie were very evident throughout the day. This event also allowed the local “Ted Knott Chapter” of Trout Unlimited to sign up several new members and give existing members a chance to renew their memberships.

If you didn't get a chance to attend this event please visit John at Grindstone Angling in Waterdown, he will be pleased to answer any questions that you may have and supply you with top of the line gear from the bottom up, hooks, flies, tying material, rods, reels anything that a fly fisher could want is at Grindstone Angling.
